10/08/2026	Shirley Thiite	Contribution Record	Finalized team responses and member confirmations.	Conducted final review of the completed record.

Team review

Question	Team response
Was work distributed fairly and transparently?	Yes, work was distributed based on individual strengths and interests. Tasks were discussed openly during team meetings and the division of labor was transparent from the start. All members contributed to the final proposal.
Which artefacts were jointly reviewed?	The entire project proposal document was jointly reviewed by all team members during a dedicated meeting on 10/08/2026. The contribution record was also reviewed collectively to ensure accuracy.
Are any contributions disputed or missing?	No, all contributions are accurately reflected in the log above. There are no disputes or omissions.

Question	Team response
Which member needs additional explanation before oral review?	None currently. All members are familiar with the entire project proposal and are prepared for the oral review.
